

**optimic**  
ALL EARS ON YOU

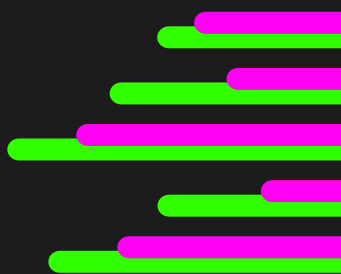

## **Perfect sound for every event**

optimic is the ideal problem solver for all speakers, even under difficult conditions. Our innovative technology improves the speech signal automatically and in real time, regardless of the microphone or sound system. The optimic also removes background noise and room reverberation based on AI. This means you always get optimum speech intelligibility, whether on stage, in the studio or during outdoor recordings.

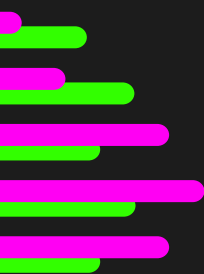

## **No more annoying feedback**

With optimic, feedback is a thing of the past. As your content is of great importance, optimic also offers the option of recording what is said in an optimized form. This allows you to ensure that your messages are heard clearly and distinctly by your audience.

## Product features at a glance

- Patented way of working
- AI-based removal of background noise  
noise and room reverberation
- Compensation of volume differences
- Maximum speech intelligibility through  
optimization of the voice sound

# WE ARE optimistic!

We are musicians, speakers and sound engineers ourselves.

That's why we know all about the often difficult conditions at event and production venues. That's why we have developed a solution to give every speaker the best possible sound - simple, technically sophisticated and at a price that delivers what it promises.

We will be happy to provide you with a test device! Do not hesitate to contact us at any time for these or other questions:
